

New Homes for Small Sites

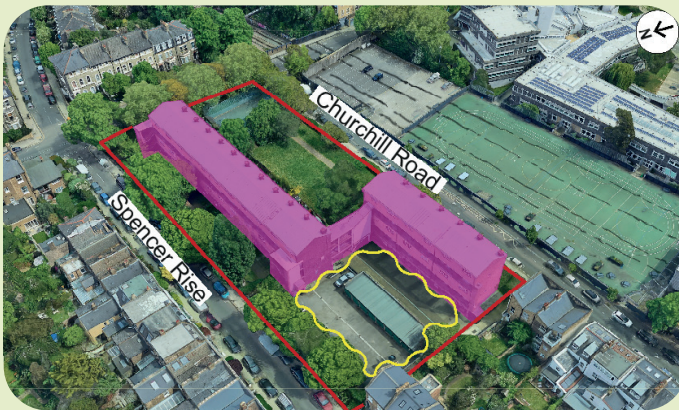

Could additional new homes be built on your estate?

Churchill Road & Spencer Rise Estate

Is there a small space on Churchill Road & Spencer Rise Estate that could be improved by building new homes for local people? What improvements to the wider estate could these homes lead to?

We're looking at opportunities across the whole of Camden to provide desperately needed new homes and through this work are looking again at our previous proposals to build new homes on Churchill Road & Spencer Rise Estate.

This is about building new homes on infill sites and not about replacing homes.

 NO CHANGE to existing buildings
 Estate Boundary

 Potential infill site(s) - we want to know if there is anywhere within this area that you think new homes could go

We want to know what you think of the idea of additional new homes on your estate and what improvements you think they could bring to your estate.
